

# 4-Strand Double-ended Leash

## Supplies:

- 20 ft. of 550 color #1
- 20 ft. of 550 color #2
- x2 Brass O-rings (1 in.)
- x2 Brass Snaps (1/4 in.)

## Tools:

- Scissors
- Lighter
- Binder clip

## Directions:

1. Thread both colors through brass snap. Snap should be at middle of both cords.
2. Cross light color over itself between dark color strands.
3. Cross dark color over itself between light color strands.
4. Repeating steps 2 and 3 will form braid.
5. Clip braid whenever necessary. When you have completed 1 ft. of braiding, thread a brass ring onto two strands. Then, continue braiding until you have nearly reached desired length. Thread the second brass ring on the same way. Braid for 1 ft. more.
6. Thread second brass snap onto two strands. Fold down other two strands.

(Continued on next page)

**Directions:** (continued)

7. Cross dark strand that went through the snap over the braid. The end will be finished with a cobra weave.

8. Fold light color over dark.

9. Bring light color around the back and up through the loop created by the dark color. Pull tight.

10. Reverse sides and follow steps 7-9 again. Cross dark color over top, light color goes around back and through the loop.

11. Continue alternating this pattern until you have a couple of inches weaved.

12. Cut the ends about a half inch from your weave. Melt with the lighter, and use the flat side of the scissors to squish it against your project.

**Use:**

Either end of this leash can be attached to your pet's collar. The other can be snapped into the nearest ring to form a handle. The snap can also be used to tether your pet to a pole or tree.
